### PROFILE INFO

Network Engineering Field Technician with hands-on experience in subnetting, network configuration, and troubleshooting. Built practical tools including a subnet calculator and networking tool checklist to support field operations. Applied foundational networking principles in real-world scenarios, combining technical knowledge with custom-built utilities to improve efficiency and accuracy.

### EDUCATION

2023 - 2024  
CCT WARRI

- CompTIA Network+ Training (Certificate of Completion)

2012 - 2018  
OSSO

- SSCE Holder

### SKILLS

- Punch-Down Tools
- TP-Link Gigabit Switches
- 22U/42U Racks
- CCTV (DVR/NVR)
- Patch Panels
- Cat6 Ethernet
- TP-Link Outdoor AP
- Starlink

### LANGUAGES

- Pidgin English (Fluent)
- English (Fluent)
- Yoruba (Basics)
- Urhobo (Intermediate)

### WORK EXPERIENCE

BlueHive by SalesUnit 2025 - PRESENT  
Network Engineer Intern

- Installed conduit piping and surface boxes by channeling walls to support structured cabling infrastructure.
- Set up and configured 22U and 42U network racks, including power management, patch panel termination, and cable management.
- Mounted and configured CCTV surveillance cameras, including DVR/NVR setup and remote access testing.
- Installed and configured a Starlink satellite internet system, performing connectivity and speed tests.
- Deployed a TP-Link outdoor access point to extend wireless coverage and improve signal roaming for users.
- Terminated and tested Ethernet cables (Cat5e/Cat6) using punch-down tools and cable testers
- Collaborated with senior technicians on site-wide LAN implementation and equipment diagnostics

Technika Aid 2024 - 2024  
Network Engineer Intern

- Installed conduit piping and surface boxes by channeling walls to support structured cabling infrastructure.
